New! Boost Your Abilities with Puzzles, Games and Contests II   Ages 8-14

Try some different puzzles, games and contests than from the original "Boost" program. This new program was created so students can take either or both without a lot of repeat challenges. So, strap on your thinking caps and be ready for some fun competitions! You could become a champ at games like Boggle, Pictionary, Kids' Trivia, and Scattergories. Learn some new math tricks to make you a calculating wizard; and sharpen your logic skills to solve our Crypto-arithmetic and "Who Owns the Zebra" type puzzles. You might even lead your team to victory with your knowledge, quickness of mind

and talents! Studies show that these types of activities increase learning, teach discipline and develop social interaction -- but best of all, they are lots of fun.
Instructor: Martin Sobin, Jersey Chess

FINE & PERFORMING ARTS

Fine Arts Camp   **Ages 9-12**

This program is designed to expose student learners to the Fine Arts. Students will create sculptures, paintings, drawings, computer art, and ceramic works, and put on an exhibition. The primary goal of this program is to bring out the creative potential of young learners in a variety of disciplines, regardless of their level of ability. Students are grouped by age progressing through the individual art sessions on a rotational basis each day. This camp is unique in that the instructors are RVCC Visual and Performing Art faculty as well as successful practitioners in their areas of specialization. By having RVCC faculty run this camp it also allows the student access to materials and facilities normally not available to non-college students.
Drawing - introduces the student to the basics of drawing from life using a variety of drawing materials. Painting - introduces students to the expressive possibilities of the painting medium, & color. Sculpture - an introduction to some of the methods and materials unique to sculpture.
Graphic Design - covers the basics of creating and manipulating images on the computer using various software programs. Ceramics - introduces students to the basics of forming clay.
Instructors are RVCC Fine & Performing Arts Faculty.

Acting for the Camera   Ages 8-15

This class is for the aspiring young 'stars' in your household. It is here they will learn real auditioning skills by working with scripts for commercials and film readings. Your child will learn how to characterize and follow direction, block for camera and read with their 'co-stars'. Improvisation an ad-libbing (off the script) will be taught as a basis of personalizing characters and trusting instincts. One of the quickest ways to gain experience in this industry is by doing 'extra' work otherwise known as a "Background Artists." Included in this class is a list of legitimate talent agencies and terminology of the business. This class is designed by casting director, Kathy Wickline, CSA (www.wicklinecasting.com) who holds over 10,000 casting credits in film, commercials and TV. All original footage will be sent to a professional editor for creation of a USB. Orders will be taken for purchase; DVD Rate $37.99 includes shipping and handling.

Music and Voice Production   Ages 12-17

Does your child dream of what it's like to be behind the microphone, performing like their favorite singer? Well, here's their chance! This one-of-a-kind class designed by a GRAMMY award winning music producer and two-time Parent's Choice Gold winner offers students an actual recording studio experience by introducing them to the amazing world of the music industry. Students will have a blast developing their skills in Songwriting, Music Recording, Voice-overs and Audio Equipment Operation. Students can work interchangeably as talent and/or crew, behind the scenes or behind the microphone. They'll learn vocal warm up routines, perform voice-overs and TV/radio announcements, have a blast singing karaoke to their favorite songs, and the best part is they will have the unique opportunity to create their very own song from start to finish and record it live! It isn't often that a child can say they had a hand in fully producing a song from beginning to end and have a copy of that song to share with friends and family for years to come. Students will receive one professionally edited audio CD that contains all of their camp recordings for the week. This CD is included in the class fee.

New! Intro. to VEX IQ Robotics   **Ages 7-12**

Have fun building, designing, and programming robots with the all-new VEX IQ robotic system and curriculum. Vex has taken its high school program which is used by over 10,000 teams around the world to learn robotics, and adapted it to meet elementary and middle-school aged children. Starter projects will include Armbot IQ, Clawbot IQ, Ike, and V-Rex! Have fun working with IQ Sensors that allow for autonomous and hybrid control of VEX IQ robots and other creations. VEX IQ Sensors connect to a robot or mechanism quickly and are easily programmed to help measure time, position distance, rotation, sense touch, provide feedback, allow for human-to-robot interaction, and much more.

Mon-Thu	June 27-30	1:00-4:00pm

Course Fee $152

Lego WeDo Robotics   **Ages 6-10**

Legos + Robots + Computers = Super Science Fun! In this program, students will be able to build LEGO models featuring working motors and sensors; program their models; and explore a series of cross-curricular, theme-based activities while developing their skills in science, technology, engineering, and mathematics, as well as language and literacy. Students will use simple drag and drop software and a lap top computer to actually learn how to program robots made from Legos. Activities center around four themes including Amazing Mechanisms, Play Soccer, Wild Animals, and Adventure Stories. **Plus - many new advanced builds to promote S.T.E.M learning.** All participants will take home an insect-like Hex Bug robot as part of the program.

CRN 30853   YS734-01   4 sessions
Tue-Fri   July 5-8   9:00am-12:00pm
Course Fee $152

Advanced Transforming Robots & Lego Minecraft   **Ages 10-12**

Have fun building and creating using your imagination. Students construct a wide variety of robots and participate in unique robotic challenges. Get ready to modify your design to compete in our robot tug-o' war, Olympic competition, soccer match, robo-bowling, and more. Students learn Science, Technology, Engineering, & Mathematics principles in a fun, hands-on atmosphere. Students will work with the Lego Robotics NXT and EV3 Building Systems. Plus have fun building in the virtual world of Minecraft on our Minecraftedu server.
Instructor: Super Science Programs for Kids Staff
CRN 30854   YS736-02   4 sessions
Tue-Fri   July 5-8   1:00-4:00pm
Course Fee $152

Lego Architect & Engineering   **Ages 7-12**

Architecture and engineering are the focus of this program. You will work to design straw towers, balsa bridges and a wide array of Lego and K'NEX™ architecture projects. Have fun building famous architectural designs from around the world including Adam Tucker Reed's famous brick structures including the Empire State Building, Imperial Hotel, Whitehouse, London Bridge, Imperial Hotel, Flat Iron Building, Seattle Space Needle, and more. You will also build bridges, towers, and other structures using a variety of materials and learn about structural engineering principles and forces that act on structures. Develop science, technology, engineering and mathematics skills in a fun, hands-on environment.
Instructor: Super Science Programs for Kids Staff
CRN 30855   YS735-01   5 sessions
Mon-Fri   July 11-15   9:00am-12:00pm
Course Fee $190

Mission to Mars   **Ages 7-12**

Have you ever wanted to travel to Mars? In this new program, students will discover Mars and all of its unique features and then design and build a robotic rover in the hopes of clearing the surface for a new colony. You will research the NASA's rovers and then work with motors, solar panels, sensors, remote controls, and a wide array of other materials to create a robotic rover. You will then participate in a timed robotic contest to try to clear the surface in the least amount of time. Have fun as you learn about astronomy, engineering, science, and mathematics!

CRN 30856   YS776-01   5 sessions
Mon-Fri   July 11-15   1:00-4:00pm
Course Fee $190

Junior Physicians   Ages 6-10

Discover the anatomy of the world's most complicated system - the human body! In this program, kids will find out what it's like to journey through the human body. Explore the science behind blood, bones, how a model of the human body works, and more. Participants will test for blood types, make a map of their tongue, and perform simulated heart and brain surgery, and more.

Mon-Fri   July 18-22   9:00am-12:00pm
Course Fee $190

Lego Star Wars & Motorized Machines   Ages 7-12

LEGO enthusiasts, have fun building your favorite adventure from a Star Wars galaxy that is far, far away. Star Wars projects will vary depending on availability from LEGO headquarters, but will include age-appropriate new models including the Imperial Star Destroyer, Hailfire Droid, Millenium Falcon, Sith Infiltrator, MTT, Tie Fighter, Darth Vader, Anti Vehicle Cannon, Trifighter, Wookie Gunship, and more. Students will also build a wide assortment of non-Star Wars motorized LEGO Education technic machines and create their own projects that illustrate science concepts.

Chemical Magic Plus   Ages 7-12

Get ready for a fun-filled "magical" laboratory experience Harry Potter style. Enjoy making Flubber, Silly Putty, Super Hi- Bounce balls, and more. Have fun making carbon dioxide "bomb" bag, light inside of a glow bottle, a mushroom monster, play dough, Glowing Goo, and even a tie-dye style shirt. We will create atomic worm polymers and lava lamp-like blobs. We will also demonstrate the Big Bang Cannon, diet Coke and Mentos Geyser, Magic Genie in the bottle, and

more. All students will take home a mini- chemistry kit & recipe booklet. Please bring a 100% white cotton T- shirt to the second class.

Diggin' For Dinos, Rocking Rocks & Crystal Creations   Ages 6-10
Young scientists will discover the exciting science of archaeology and paleontology as they excavate and assemble complete skeletal replicas from simulated "fossilized" rock. Dig for Tyrannosaurus Rex, Triceratops, Brachiosaurs, and more. Make fossilized plaster replicas of dinosaur teeth, claws, trilobites, and ancient snails. Sort, classify, and take home a variety of shark teeth. Unearth some fascinating facts about rocks, minerals, and crystals. Take home a unique rock and mineral collection, a rock and mineral book, unearthed treasures, fossilized shark teeth, and crystals.

Mon-Fri   Aug 1-5   9:00am-12:00pm
Course Fee $190

Super Science Make & Take   Ages 6-10
Discover the excitement of science and make a variety of toys designed to illustrate science concepts that make learning fun. Most of the projects can be taken home as they are made throughout the week. Make your own working telescope as you learn about the optics of light. Construct an electro-magnet and a working electric motor. Build an adjustable, ball-launching catapult that changes the trajectory of a flinging projectile. Create a working model of Hero Alexandria's fountain or vortex tornado in a bottle. Make ultra-violet bead bracelets, a working compass, submarine divers, and more. Projects will vary by age level and instructions will be taught in more depth for older students.
Instructor: Super Science Programs for Kids Staff
CRN 30864   YS632-01   5 sessions
Mon-Fri   Aug 1-5   1:00-4:00pm
Course Fee $190

Space: Infiniti & Beyond   Ages 7-12
Students explore the mysteries of the solar system and the science behind air & space travel. Children discover not only how astronauts get into space, but also how they live and work once they get there. In this advance space program, we will investigate unique flying machines, including building balloon-copters, boomerangs and a mini hovercraft as take home projects for the children. Most importantly, they learn firsthand about the aerodynamic properties of flying machines by building their own Estes® model rockets! Once the rockets are completed, children will blast off on a real Mad Science space mission Live Rocket Launches! This Mad Science Class is Out Of This World!

Eureka! The Young Inventors Camp   Ages 7-12

This is a class designed by you—the Inventor! Each day you'll be given a series of challenges which must be overcome using basic materials, simple machines, tips from world famous inventors and the most important thing of all – your imagination! With a little bit of ingenuity you'll construct catapults and forts, fabricate a winning Egg Drop design, and assemble a working light saber to take home. Thomas Edison said invention is 10% inspiration and 90% perspiration, but this class is 100% fun!

Red Hot Robots   Ages 7-12

Spend this summer playing with our super cool Red-Hot Robots! Discover the world of robots as we investigate the differences between humans and their robotic counterparts - Students will learn how robots use infrared and other sensors to discover their environment. Invent your own robot designs using recycled materials. Finally - We use your hands-on skills to build your very own working Robot to Take Home to "LIVE" with You!
Instructor: Mad Science Staff
CRN 30869   YS716-01   5 sessions
Mon-Fri   Aug 1-5   9:00am-12:00pm
Course Fee $218

Junior Physicians Team   Ages 7-12

Is there as Doctor in the House! - Join us for an incredible journey in to the worlds most sophisticated scientific system - the human body. Kids will explore the science behind cells, organs, muscles and bones through fun, hands-on activities. Cool experiments will help campers understand more about their senses, brains, breathing, circulation and digestion by creating a simulated stomach, building simple stethoscopes and lung models, assembling a model skeleton and much more! This Class is Spine Tingling!
Instructor: Mad Science Staff

Mon-Thu   June 27-30   9:00am-12:00pm
Course Fee $152

New! Junior Engineering of Power & Energy   Ages 6-8
In the Engineering of Power and Energy, join us as we look at ways to get things moving…no batteries required. In this class, students explore the foundational concepts of potential and kinetic energy by building their very own toys. Additionally, students will explore natural power and energy sources. They will explore mechanical, and environmental engineering; learn about clean energy sources and how simple machines help make our lives easier. (Simple Machines; Solar Power; Wind-Up Whirligig; Boomerang Can)
Instructor: Engineering for Kids Staff
CRN 30877   YS846-01   4 sessions
Mon-Thu   June 27-30   1:00-4:00pm
Course Fee $152

New! Building Cities   Ages 9-12
Cities are incredible feats of engineering. While many cities have developed over hundreds or even thousands of years, in modern times some cities are being built from the ground up in a very short time. Students will take up the role of a team of city planners, looking to design the best city in the world from the ground up. They will explore civil, electrical, industrial, and environmental engineering. (Mining Mountains; Natural Filtration; Bridge the Gap; Wind Turbine; Sweet Skyscrapers)
Instructor: Engineering for Kids Staff
CRN 30878   YS847-01   5 sessions
Mon-Fri   July 11-15   9:00am-12:00pm
Course Fee $192

New! Mechatronics Masterminds   Ages 9-12
Eureka! Kelvin has finally done it! He has created a perpetual motion machine. But what is this? An evil genius has stolen Kelvin's masterpiece - oh no! Kelvin is now looking for a trustworthy team to develop and test new gadgets that will help him find and safeguard his perpetual motion machine. Explore the basics of mechatronics engineering and logic based programming as students use LittleBits® and work together to design gadgets, tools, and machines that will help Kelvin get out of any sticky situation he may encounter.
Instructor: Engineering for Kids Staff
CRN 30879   YS848-01   5 sessions
Mon-Fri   July 11-15   1:00-4:00pm
Course Fee $192

New! Design the Future   Ages 9-12
What does the future look like? Join us as we embark on an odyssey to explore the future of transportation, manufacturing and structural. Let's take a look at the innovations of today and apply them to create the designs of tomorrow as we explore ways to harness clean energy and house a growing human population. Become an engineer and help Design the Future. (Innovative Insolation; Motorcycle Mayhem; Breath Easy; Beach Front Property; Solar Sailing)
Instructor: Engineering for Kids Staff
CRN 30880   YS849-01   5 sessions
Mon-Fri   July 18-22   9:00am-12:00pm
Course Fee $192

New! Engineering of Medieval Time   **Ages 9-12**

In medieval times, there were a huge number of engineering innovations. Crossbows, drawbridges, towers, cranes, the compass, and more were invented during those times. Students will be split into groups forming their own feudal court of lords and ladies. They will try to beat out the other teams in various challenges to show their prowess and be crowned kings and queens of the land with the Engineering for Kids Crown. They will explore mechanical and civil engineering in this class. (Castle Construction; Draw Bridge; It's a Breeze; Candy Catapults; Egg Car Joust)

Instructor: Engineering for Kids Staff

Mon-Fri   July 18-22   1:00-4:00pm
Course Fee $192

Animal Grossology   **Ages 7-12**

If you're fascinated by the weird but true, wild and wacky, gross and yucky, then this is the class for you! Spend the week discovering the zany biology of our animal friends. Each day we'll explore fascinating facts about the animal kingdom, focusing on a "creature of the day". Using Bricks 4 Kidz® copyrighted model plans, build a different animal model each day, many will be motorized. Each student will have their own "Animal Grossology" booklet to fill out with the crazy and cool facts they learn. In addition, there will be examples of real animals in the form of animal skeletal remains, preserved animals and replicas. Students will take home their booklet and a LEGO® take home.

Mon-Fri   July 11-15   9:00am-12:00pm
Course Fee $192

NASA Space Adventures   **Ages 7-12**

A week of learning about and building models inspired by NASA using Bricks 4 Kidz® copyrighted model plans. Each day there will be two specific models built. Most of the models will be motorized. In addition to learning about each of the models built there will be discussions on gravity, thrust and even space travel and exploring the galaxy. Models will include the Discovery Space Shuttle, a launch pad, Lunar Module and satellites to name a few. In addition, there will be games, some LEGO® Star Wars™ themed models and fun games. All students will receive a LEGO® take home item.

Instructor: Bricks 4 Kidz® Staff

CRN 30883   YS790-01   5 sessions
Mon-Fri   July 11-15   1:00-4:00pm
Course Fee $192

Model Design with LEGO Bricks   **Ages 7-12**

This is a class for those boys and girls who love to build and would like to have the opportunity to create their own design of motorized models and structures. How do LEGO® brick model-designers come up with their ideas? Where do they begin, and how do the ideas go from concept to completion? This class will explore the creative process of model design. Students will learn the function of different LEGO® components and discover how those components can work together to create all kinds of solid structures and moving parts. As the students learn, they create. The possibilities may not be limitless, but they are certainly bountiful. On the last day of class, the students will showcase their designs. All students will receive a LEGO® take home item.

Instructor: Bricks 4 Kidz® Staff

CRN 30884   YS791-01   5 sessions
Mon-Fri   July 25-29   9:00am-12:00pm
Course Fee $192

New! Stop Motion Video   **Ages 7-12**

Light, cameras, LEGO® action! In this creative class, students will plan, script, stage, shoot, and produce their own mini-movie using Stop Motion Animation. Working as a team, students will use LEGO® components, including min-figures, to build the set and props, then shoot their movie using a digital camera. Teams will use movie-making software to add special effects, dialog, titles, credits and more. Students will impress friends and family with a screening party on the last day of class. All materials supplied by Bricks 4 Kidz of Hunterdon-Somerset. Every student will receive a 1 Gg memory stick wrist band.

Instructor: Bricks 4 Kidz® Staff
CRN 30885   YS851-01   5 sessions
Mon-Fri   July 25-29   1:00-4:00pm
Course Fee $205

New! Mining & Crafting   **Ages 7-12**

Minecraft™ is what this class is all about. If you love building with LEGO® bricks and playing Minecraft™, this is the class for you. Experience the world of Minecraft™ in a class that merges the virtual world with hands on activities. Students will have a unique experience playing Minecraft™ in groups on a local server controlled by the instructor. Then they get to build their favorite characters, Steve, Creeper, Mooshroom and more using LEGO® bricks, along with Bricks 4 Kidz® motorized models that tie into the game's various elements. This class is not affiliated with Minecraft.net. Students take home a mini Creeper model.

Instructor: Bricks 4 Kidz® Staff

Mon-Fri   Aug 1-5   9:00am-12:00pm
Course Fee $200

BEFORE AND AFTER CARE

Raritan Valley Community College is pleased to offer summer program participants both Before and After Camp Care. If you would like your child to take part in an extended day program that allows you to bring your child as early as 7:30 am and pick your child up at or before 6 pm, please indicate on the Registration Form.

WEEK	CRN	BEFORE COST	CRN	AFTER COST
June 20-24	30889	$38	30897	$58
June 27-30	30890	$30	30898	$46
July 5-8	30891	$30	30899	$46
July 11-15	30892	$38	30900	$58
July 18-22	30893	$38	30901	$58
July 25-29	30894	$38	30902	$58
August 1-5	30895	$38	30903	$58
August 8-12	30896	$38	30904	$58

Before-Care: Participants are supervised on campus from 7:30 – 9:00 am
during the weeks and days listed above. RVCC's experienced staff ensures your child's safety and prompt check-in at their regularly scheduled programs. You may enroll in any or all of the weeks in which your child is attending a program.

After-Care: At the end of the regular day, children enrolled in this program remain on campus where they participate in a variety of supervised activities until 6:00 pm. You may enroll for any or all of the weeks in which your child is attending a program. Participants are not permitted to remain on campus following the end of their regularly scheduled program day without authorized supervision.

Refunds: No refunds can be provided for cancellation/withdrawal from Before or After Care.

REGISTRATION and PAYMENT must include full payment of tuition and fees along with fully completed Registration Form at the time of registration.

LUNCH COVERAGE
(Lunch is not included)

Raritan Valley Community College's is pleased to offer summer program participants Lunch Coverage. Participants are supervised on campus from 12:00-1:00pm during the weeks and days listed below. **You must send your child with a peanut free lunch!** RVCC's experienced staff ensures your child's safety and prompt check-in at their regularly scheduled programs. You may enroll in any or all of the weeks in which your child is attending a program. To take advantage of this service, the child must be enrolled in a morning and afternoon class.

WEEK	CRN	COST
June 20-24	30905	$20
June 27-30	30906	$16
July 5-8	30907	$16
July 11-15	30908	$20
July 18-22	30909	$20

August 1-5	30911	$20
August 8-12	30912	$20

Refunds: No refunds can be provided for cancellation/withdrawal from Lunch Coverage.

REGISTRATION and PAYMENT must include full payment of tuition and fees along with fully completed Registration Form at the time of registration.

REGISTRATION INFORMATION   *Register Early! Many of our classes have limited enrollment and fill quickly. Sign up early to insure a place in the course of your choice.*

Registration includes full payment along with fully completed Registration Form.

IN-PERSON
Our office is located on the lower level of the College Center. Register Monday through Friday from 8:30 am to 4:00 pm.

ON-LINE REGISTRATION
www.raritanval.edu/youth

MAIL
Complete the registration form and mail it with a check or money order made payable to RVC College to: RVCC – College Advancement
                 P.O. Box 3300, Somerville, NJ 08876

Youth registrations cannot be done by phone.

View our courses: www.raritanval.edu/youth

Phone: 908-526-1200, Ext. 8404   E-mail: youth@raritanval.edu

COURSE CONFIRMATION & LOCATION
Approximately 5 days before the start of your course, a confirmation notice is emailed containing all necessary information. If you have not received the confirmation regarding your course within 2 business days of the course starting date, please call 908-526-1200, Ext. 8404. There are no refunds because you did not receive confirmation.

CANCELLATION & REFUND POLICY
The Youth Program operates on a self-supporting budget based on tuition income. We are pleased to offer you a refund for your course provided you adhere to the following refund policy and process. We regret that there can be no exceptions to the following cancellation policy due to an individual's personal or professional circumstances. If the College cancels a course prior to the first class, registrants receive the entire tuition and fees refunded. Please allow 4 to 6 weeks for processing and mailing of your refund. No refund can be provided for cancellation/withdrawal by the student without written notification at least ten (10) business days prior to the start date of the course. Registrants canceling their enrollment in writing ten (10) or more business days in writing before the beginning of a course receive a full refund less a non-refundable registration fee of $15. The written request should include: student ID number, home address, home telephone number, the course name and course number or CRN. Please fax your request to 908-253-6696 or mail it to RVCC, College Advancement, PO Box 3300, Somerville, New Jersey 08876 or email to youth@raritanval.edu. The College reserves the right to limit registrations, combine like courses and to cancel courses if enrollment is insufficient. If the College cancels a course we will contact you by either telephone or email. At that time, you may choose to register for another course or have your refund processed. All refunds are sent by mail to the student.

DISABILITY ACCOMMODATIONS

If your child has a disability and you have questions or want to request accommodations, make an appointment to meet the Coordinator of Disabilities Services. The College provides services in accordance with federal legislative guidelines and RVCC Policies and Procedures. Basic accommodations are approved on a case-by-case basis. We request that documentation of disability and accommodations be presented at least three weeks prior to the beginning of class.

We offer the option of providing some programs off site. In addition to the convenience of offsite programs, this option allows you the freedom to tailor any of our programs to your individual needs.

Youth Registration Form

Please print clearly.   ☐ New Student   ☐ Returning Student   ☐ Check here if this is a new address or telephone number.

Child's I.D. Number (if known): _____   Child's Social Security Number (optional): X X X - X X - _____

Child's First Name: _____   M.I.: _____   Last Name: _____

Check: ☐ Female ☐ Male   Child's Date of Birth (required): Month: _____ Day: _____ Year: _____   Child's Age: _____

Ethnic: ☐ African-American ☐ Asian ☐ Caucasian ☐ Hispanic/Latino ☐ Other

Home Address: _____

City: _____   State/Zip: _____   County: _____

Parent Home Phone: (_____) _____   Work Phone: (_____) _____
