

**Health and Safety Requirements
Clinical MLT Program
Summer 2024**

If admitted to the Clinical MLT Program, continuation is contingent on the submission of mandatory health and safety requirements by July 15, 2024. Failure to submit each of the following requirements by the deadline will result in removal from the program. Detailed instructions for submission of all health and safety records to SentryMD will be provided upon acceptance into the program.

- A clean criminal background check completed through Adam Safeguard. Please note that it can take 30+ days for the background check to be completed. The process should be started immediately upon acceptance into the Clinical MLT Program. Detailed instructions will be provided upon acceptance into the program.
- A negative drug screen completed between August 1, 2024 and August 28, 2024.
- Color Vision Test
- Proof of the following immunizations/titers. If the lab test shows low titers, proof of a booster dose must be submitted by the deadline.
 - Completed vaccine series or positive titer for measles, mumps, and rubella (MMR)
 - Completed varicella (chicken pox) vaccine series, positive titer, or a documented case of chickenpox
 - Completed vaccine series or positive titer for hepatitis B
 - Tetanus (Tdap or Td) booster within the past ten years
 - Influenza vaccine for the current flu season
 - Negative Tuberculosis skin test or blood draw; if positive, chest x-ray required
 - Completed COVID-19 vaccine series
