Students submit clinical applications to the Sentry MD RVCC Nursing Application Background check Uploader/Portal ONLY once all prerequisites have been met and are completed. A student is not eligible to apply to the clinical nursing program until they have completed ALL prerequisites. It is recommended that students view current nursing program information on the above website link/s before attending the nursing information session. There will be a fee for the upload of the clinical application and a required criminal history background check before application submission. The Nursing Program prioritizes in-county applicants.
