**THANK YOU!**

*"They (The Second Generation) are heirs to a unique legacy..."*

— Michael Berenbaum

*Building on dramatic interviews, powerful archival footage and first-hand accounts of The Holocaust, "The Second Generation" explores the difficulties and challenges of growing up as children of Holocaust Survivors. The rippling effects of their parents' trauma impacted the Second Generation. Many of them feel as though they are "replacements" for lost family members - sometimes losing their own identities. Others feel a need to protect their parents. This film stands as a testament to the resiliency of the Second Generation who, "despite being raised by parents who were so ill-equipped to be parents," are accomplished adults - dedicated to Sharing The Legacy by ensuring that their parents' stories are never forgotten.*

Executive Producer, Peppy Margolis...Director, Harry Hillard  
Psychological Commentary, Dr. Elizabeth Wilen-Berg
